- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frontend:** React.js, Next.js, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, Firebase Authentication, PHP
- **Database:** MongoDB, Firestore, Firebase Realtime Database, MySQL
- **Tools:** Git, GitHub, VS Code, Vite, REST APIs, Cloudinary

Education

Bachelor of Computer Applications (BCA) 2022 – 2025
MK Institute of Computer Studies *Bharuch, Gujarat*

MERN Stack Full Stack Development
Red & White Multimedia Education *Bharuch, Gujarat*

Projects

BIM Billing System

React.js, Firebase Authentication, Firestore, Tailwind CSS

- Built a role-based billing platform supporting Admin, Contractor, and Karigar workflows.
- Implemented authentication, attendance tracking, salary calculation, billing, and payment management.
- Designed responsive dashboards with Firestore integration and reusable React components.

Payslip Generator

React.js, Node.js, Express.js, MongoDB, JWT, Cloudinary

- Developed a full-stack payslip management system for creating companies, employees, salary templates, and professional payslip PDFs.
- Implemented secure admin authentication using JWT and HTTP-only cookies for protected company and employee data.
- Integrated MongoDB for data management, Cloudinary for company logo uploads, and dynamic PDF generation using multiple salary templates.

Recipe Sharing Platform

React.js, Firebase, Tailwind CSS

- Developed a responsive recipe sharing platform with authentication and CRUD functionality.
- Integrated Firebase for secure real-time data storage and user management.
- Built a clean, mobile-friendly interface using reusable React components and Tailwind CSS.

Smart Home Management System

PHP, MySQL, HTML, CSS, JavaScript, Bootstrap

- Developed a Smart Home Management System with secure authentication and complete CRUD operations for device and room management.
- Implemented PHP and MySQL backend with responsive dashboards for managing smart home devices and user activities.
- Designed a modern, user-friendly interface using Bootstrap and deployed the application online using InfinityFree.
